
KIRKSVILLE CITY COUNCIL REPORT

Council Meeting Date: March 18, 2013

Agenda Item: 3

Report Prepared by: Katie Myers, Finance Director

Recommended Motion: To approve an Ordinance amending Chapter 25 – Water Sewer Operations concerning customer responsibilities.

Background: The City Council made a change to Chapter 25 to require customers to read their meters annually since the City does not have access to these meters. Upon further review, additional language was needed to clarify the requirements and the responsibility of the property owner.

Fiscal Impact: The fiscal impact due to this change is difficult to factor. The City provides water service to customers with the intent that the customer pay for the used water. This ordinance makes it clear that it is the responsibility of the property owner to pay for the actual water used at the premise.

Respectfully submitted,

Mari E. Macomber
City Manager
