August 27, 2019

City of Kirksville  
Attn: City Clerk  
City Hall  
201 South Franklin Street  
Kirksville, MO 63501

Dear City of Kirksville representatives,

On behalf of Advanced Disposal Services Solid Waste Midwest, LLC ("Advanced Disposal"), I thank you for the opportunity to submit a bid for the Collection and Disposal of Residential Solid Waste, Curbside Trash, Recyclable and Bulky Items for the City of Kirksville, Missouri. The enclosed proposal from Advanced Disposal has one overriding goal—to *provide exceptional environmental integrity, superior customer service, and measurable economic value to the City of Kirksville.*

We are strong stewards of the environment and work with our surrounding neighborhoods to become part of the community. We view our services as vital to the infrastructure needs of all cities, counties and municipalities. Through this bid process, we look forward to fulfilling the scope of work for the City of Kirksville's Residential Solid Waste Services.

I have appointed Chuck Duncan, Municipal Marketing Manager, to serve as your primary contact for this bid response. His contact information is:

1145 Bear Road  
Decatur, Illinois 62522  
Mobile: 217-317-1072  
Email: [Chuck.Duncan@advanceddisposal.com](mailto:Chuck.Duncan@advanceddisposal.com)

We look forward to continuing our relationship of shared success. As President of Advanced Disposal Services Solid Waste Midwest, LLC, I am authorized to sign and submit the attached proposal response and I have the ability to bind our company by signature.

Sincerely,

John Spegal

## COMPANY PROFILE

### Company Profile

Advanced Disposal Services, Inc. and its subsidiaries, is the fourth largest environmental services company in the U.S. We are a full-service vertically integrated waste management company, providing non-hazardous solid waste collection, recycling, and landfill disposal solutions to commercial, industrial, municipal and residential customers throughout 16 states and the Bahamas. We pride ourselves on our strong partnerships between our employees and the customers we serve. We also maintain a strong commitment to personalized and friendly customer service.

### Community Commitment

No one understands the needs of a community better than those who live and work in it. Our philosophy of decentralized operations allows our local teams to give back to their communities in ways that best meet the needs of their communities. This location-specific approach to good corporate citizenship results in an array of outreach programs, contributions and support that serve and benefit thousands of people across the Advanced Disposal footprint. It is our goal to hire within the communities we serve and locally purchase supplies, equipment and fuel. We don't just sign a contract with a township, county or municipality...*we become a part of the community.*

### Forward Thinking

Advanced Disposal is deeply committed to ensuring a clean and safe environment for our employees, our customers, and our communities. We consider environmental stewardship of utmost importance and believe that our true business is making the world a cleaner, more beautiful place to live, work and play.

We approach all of our operations with a keen eye on safety and environmental care. Our landfills are built with state-of-the-art engineering designs and materials. We use extreme caution when constructing these sites to ensure the integrity of the design and materials are maintained. Daily operations are just as important as construction. Advanced Disposal uses only state certified experienced equipment operators. A certified landfill operator is also always on site when the facilities are accepting waste. We fully comply with all local, state and federal regulations, and our sites are inspected annually at a minimum. With 40 landfills to maintain, operate and potentially expand, we will always remain vigilant to the protection of our natural environment while providing an integral infrastructure asset for the safe and healthy disposal of the community's waste.

Environmental compliance is equally important in our collection operations. Advanced Disposal operates a fleet of more than 3,200 trucks that must be operated and maintained in an environmentally sound manner. Advanced Disposal follows all local, state and federal regulations in regards to its operating fleet. The trucks are maintained nightly with rotating schedules to make sure all parts of the truck are operating in a safe and proper way. Only approved fuels are used including alternative fuels such as compressed natural gas (CNG). Currently about twelve percent of our fleet runs on CNG, and we are always looking for opportunities to grow that number. All waste generated in the maintenance of our fleet are disposed of in a proper manner with the necessary documentation of proper disposal.

In a business where the end results are clean and safe communities, Advanced Disposal takes its environmental stewardship responsibilities very seriously. Our employees, our neighbors and our families live in the communities we service. We believe it is our primary job to ensure that these communities are clean, safe and healthy for many years to come.

### **Our Operations**

We operate 93 collection facilities, 73 transfer stations, 41 MSW and C&D landfills, 22 material recycling facilities and 16 landfill gas-to-energy facilities. Our operations are focused in 16 states including: Alabama, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maryland, Michigan, Minnesota, Missouri, North Carolina, Pennsylvania, South Carolina, Tennessee, Wisconsin and the Bahamas.

Today, through the dedication of more than 6,000 employees, Advanced Disposal has a fleet of more than 3,400 vehicles running routes on a daily basis. We service more than 2.8 million residential customers including more than 800 exclusive city and county contracts.

## EQUIPMENT LIST & SERVICE DETAILS

### Our Equipment Keeps Us Moving

Advanced Disposal relies on our equipment to keep our business moving. Our operations involve a series of carts, containers, roll offs and trucks that get your waste and recycling to our landfills and each customer or community might require some specific equipment to meet their needs. We work with our customers and invest heavily in our equipment, making sure it meets their needs, operates safely and efficient and has a minimal impact on the environment and community.

The following is an overview of the trucks we plan to utilize for the City of Kirksville collection program.

Number	Year	Make	Tare Weight
272569 (main)	2017	Peterbilt – Front load	41,980
272570 (main)	2017	Peterbilt – Front load	42,040
281519 (main)	2018	Peterbilt – Side load	36,800
202543 (spare)	2000	Mack – Front load	40,680
291028 (spare)	2009	Mack – Side load	39,980
274018 (spare)	2007	Freightliner – Rear load	36,180

Advanced Disposal will continue to work with City personnel to route Kirksville as efficiently as possible while continuing to lower the average gross weight of our trucks as requested on the bid proposal. Our proposed operational plan will use a total of 8 route days to pick up the entire City in one week lowering the average weight per load to 60,000 pounds gross per load. All tonnage will be delivered to:

- Maple Hill LF – Macon, MO

The truck used for recycling services will also be able to service the entire community in a single week. The truck used for recycling has a tare weight of 36,800 with total gross weight of 48,800 when loaded. That service will remain on an EOW (every other week) schedule for the duration of the contract. Recycling will be delivered to our Moberly Transfer Station to be inspected then loaded for delivery to one of the following recycling facilities:

- Hope Haven Industries – Chillicothe, MO
- Federal International – Jefferson City, MO

## Service Enhancements

Advanced Disposal appreciates the recent opportunity to work hand in hand with the city leadership to address the concerns of expensive road repairs. We want to assure city leaders that we take that call to action seriously while also assuring the residents that we have found that delicate balance of safety and efficiency. We have made some operational changes in regards to routing and new maximum truck weights.

- Refuse trucks will be reduced to a 60,000 pound average standard weight to assist the city with reducing wear and tear on community roads.
  - 50,000 pound max standard will not be offered at this time. Our planning team has determined that this weight restriction level is not safe or economical and is counterproductive to achieving road impact relief goal because of the number of additional trucks would be needed to complete routes.
- Recycling trucks will be reduced to a 50,000 pound max standard to assist the city with reducing wear and tear on the streets.
- Advanced Disposal will continue to work with the City to streamline the routing to balance weights during the service week and identify areas of concern where a reroute may alleviate wear.

## **Pricing Details**

- City will retain 5% of billed revenues for all services up from 4% on prior contract.
- Each resident is entitled to (One) 65 gallon trash cart for \$0.00 and may request additional carts for an additional cost per month.
- Each resident is entitled to (One) 65 gallon recycle cart for \$0.00 and may request additional carts for an additional cost per month.
- Fuel Surcharge rate set at \$4.00 per gallon
- All rates will be increased by CPI-U or a maximum of 3% annually at the anniversary of the start date of the agreement.
- Pricing proposal is based from a 5 year agreement with a 5 year extension option.

After a successful vote to move forward with our proposal we will provide an updated agreement to the city.
